ABOUT US

The Children's Theatre of Charleston enriches our community by inspiring young people to lead fulfilling and creative lives through the transformative power of theatre.

At the heart of our mission is the belief that theatre is for everyone. We provide a welcoming, safe, and joyful environment for our actors, patrons, and families alike.

Community service drives everything we do. Each year, we bring the magic of live theatre to thousands of children and families across the region. By collaborating with schools, organizations, and local partners, we use the arts to foster connection and bring communities together.

Free Participation: All of our programs are offered at no cost to children. Whether performing on stage, working behind the scenes, or joining our teen theatre group, every child is welcome—regardless of financial background.

We are committed to excellence in every aspect of our work—from performance to education and outreach.

In a world increasingly shaped by technology, we believe theatre offers a vital space for imagination, innovation, and creative expression.
